

Buellton Buzz

February 2019

A Note from Mayor Holly Sierra.....

What a wonderful wet beginning of the year we're having! I hope everyone is staying dry and warm while our aquifers and Lake Cachuma are filling up. Boy, do we need this!

This is a great time to start thinking of ways to conserve energy and save a little money. Our community is a wonderful example of what's right in the "green" world. Did you know that the Marriott is Santa Barbara County's first green development? Our own Excelta just received certification as a green light industrial business. Our Buellton Chamber of Commerce/ Visitor's Bureau and the City's Planning Department are working on their certifications. Santa Barbara will be hosting a Green Luncheon on March 13 in Solvang to honor new green businesses.

What can we do? Our County and numerous websites have all kinds of information from recycling to home improvements to save energy and money. Check with PG&E and SoCal Gas for their free help. Our City Planning Department has free low flow showers heads and you can also check the County and State websites for rebates on items such as low flow toilets and appliances. The City of Buellton has a Green Team composed of interested residents who meet to discuss new ideas for our town. The next meeting is March 7th, join us!

This truly is not a political issue. It has to do with using just what we need and making changes that help our environment and pocketbook.

Again, I'd love to hear from you. I can be reached at (805) 252-2618 (leave a message), at hollys@gmail.com and during Mayor's hours Wednesday's from 2-4 p.m. in the Planning Department or by appointment.

Please pick up after your pets!

Did you know you can help prevent health and safety hazards to human and aquatic life by picking up your dog's pet waste before each storm? Visit your City's Stormwater Management webpage or www.close.thepooploop.com to find out the Truth About Dog Poop. Don't forget that all dog owners who stop by City Hall and make a Pledge to continue to "Close the Poop Loop" will receive a free bag dispenser for pet waste.

Keeping Buellton Beautiful – Improper Obstruction (BMC 8.04.030.B.6)

Remember, you cannot obstruct or encroach upon any public property such as streets, sidewalks and right-of-ways with your overgrown trees, shrubs and other items. If you have any questions please contact Ben Hernandez, City Code Enforcement Officer at 686-7423 or email your concerns to: benh@cityofbuellton.com.

151 Sycamore Drive • Buellton

Water Meter Clearances

Did you know that by maintaining free access around your water meter, you are ensuring that your water meter is read accurately, and you are billed correctly? The City recommends a 1 foot clearance around the edge of your water meter box and a 6 foot vertical clearance above your water meter to allow free access and natural sunlight needed for reading and making infrastructure and/or emergency repairs. By keeping clearance around your water meter, you are also helping protect City staff from bees, ticks, snakes and spiders!

Go to buelltonrec.com to see the full program schedule for fitness classes, weight room, open gym, room rentals, sports programs, trips, summer camp and much, much more!
