

# Buellton Buzz

June 2018

## A Note from Mayor Holly Sierra.....

Summer is almost here. I wish it would hurry up and get a little warmer. It's so nice to be outside working in the garden or walking around town. Have you been down Avenue of Flags to look at "Runaway"? The Santa Barbara Museum of Contemporary Art commissioned this traveling artwork, and with the help of our County Supervisors and Visit Santa Ynez this interesting work has landed on our Avenue. Come visit it!

Our Planning Department has been busy. Plans for a gas station and combination retail shops are in the works for the Avenue. Plans for a hotel on McMurray Road have been submitted, and the pocket park behind Tractor Farm Supply as well as our bowling alley (yes, it's still coming to Buellton!) are almost ready to go. Stop by a City Hall and the Planning Department to see the designs!

I'm taking a trip with my mother so I won't be here for Mayor's hours until June 19th, but if you have any questions about what's going on please contact City Hall or your other Council Members - and I hope to see everyone at Buellton's BBQ Bonanza July 28th! You can always reach me at [hollys@cityofbuellton.com](mailto:hollys@cityofbuellton.com) or at (805) 252-2618.

## Summer Weed Abatement

The City is currently addressing overgrown vegetation and weeds within city limits in order to prevent fire hazards. So to ensure the safety of the residents, the City and your neighbors would appreciate your cooperation by making sure that your property that has overgrown vegetation is properly maintained so as to not pose a fire hazard. Please see Buellton Municipal Code, Section 8.04.030.B.2 Substandard Landscaping. Contact Ben Hernandez, City Code Enforcement Officer at 686-7423 for any questions or to report a possible fire hazard: Let's keep Buellton Fire Free!

## PROTECT YOUR PETS MAKE VACCINATIONS ON TIME

Santa Barbara County Animal Services would remind all pet owners to keep their pet's vaccinations, including rabies up to date and current. Rabies is a preventable viral disease that is transmitted through the bite of a rabid animal. Rabies can pass from wild animals to pets. Although transmission to humans is rare, it is fatal if not treated.

Rabies vaccinations are recommended for all domestic animals including cats, dogs, horses and livestock. Santa Barbara County residents and their pets often live in close contact with wildlife. Residents can protect their pets by keeping them indoors at night, walking them with a leash, scanning the yard before allowing them outside and not leaving out food that will attract wildlife.

Symptoms of rabies can include agitation, biting and snapping, drooling, acting disoriented, appearing partially paralyzed or generally acting sick.

Rabies vaccines are available from your veterinarian and various other resources around the county. For more information, please contact your nearest Animal Services location:

Santa Barbara Shelter  
5473 Overpass Road  
Santa Barbara, CA

## Stormwater Pollution Prevention for Mobile Cleaners

Did you know mobile cleaners that service your home or business must implement Best Management Practices (BMPs) to prevent stormwater pollution year round? Visit your City's Stormwater Management Webpage to download or print a copy of the new "The Mobile Cleaner's Guide to BMPs" brochure.
