Summary

Resolution No. 01-24 requires all developers to submit a required deposit and sign a Processing Payment Agreement when filing an application. The deposit includes the cost of processing an application. The deposit creates an account against which processing charges will be drawn automatically.

The City invoices all charges for services on a monthly basis. The invoice is sent with a statement that includes a description of services rendered during the billing period. A copy of paid invoices from the vendor is also included with the Billing Statement.

If a developer has a balance due, the developer must pay the amount. This may result in the need to collect additional deposits to maintain a positive account balance. If a completed project has a positive balance, the balance is refunded.

The above report shows all (active and inactive) private project balances through February 28, 2018. The total project balance is \$-211,469.13. Of that total, \$270,181.34 is due by developers to the City of Buellton, and \$58,712.21 is being held by the City of Buellton on behalf of the developer to cover expenses as they are incurred monthly. The amount due by developers decreased by \$3,359.81, and amount held by the City of Buellton decreased by \$6,402.56 from the last billing cycle ending January 31, 2018.

Summary

The General Fund Monthly Revenue and Expenditure Report compares month-to-month data for the period July 1, 2017 through February 28, 2018. Upon monthly review, adjustments may be necessary and any changes will be reflected on the next report.

Expenditures are in line with the budget and revenue is below target due to timing differences. Both are expected to meet budget by year end.

***NOTE: Capital Items are Included in the Depreciation Category, Depreciation is calculated at the End of the Fiscal Year. Estimated annual depreciation for Fund 005 is \$250,000 and for Fund 020 is \$177,000.

Summary

The above report compares month-to-month data covering the periods July 1, 2017 through February 28, 2018 for the Water and Sewer Enterprise Funds.

Sewer revenue and expenditures are both under budget for the 2017-18 Fiscal Year. Water revenue is on target and expenditures are under budget. It should be noted that depreciation expense is estimated each month for reporting purposes. The estimate is based on prior year depreciation amounts. Actual depreciation expense will be calculated at the end of the fiscal year.

Both the Wastewater and Water Capital Funds revenues and expenditures are under budget. Connection Fee revenues are restricted for Capital Improvement Projects that enhance capacity and cannot be used for operating costs. Upon monthly review, adjustments may be necessary.

***NOTE: Capital Items are Included in the Depreciation Category, Depreciation is calculated at the End of the Fiscal Year. Estimated annual depreciation for Fund 005 is \$250,000 and for Fund 020 is \$177,000.

Summary

The above report compares month-to-month data trends for the period of March 1, 2017 through February 28, 2018 for the Water and Sewer Enterprise Funds.

Sewer revenue and expenditures are both under budget for the 2017-18 Fiscal Year. Water revenue is on target and expenditures are under budget. It should be noted that depreciation expense is estimated each month for reporting purposes. The estimate is based on prior year depreciation amounts. Actual depreciation expense will be calculated at the end of the fiscal year.

Both the Wastewater and Water Capital Funds revenues and expenditures are under budget. Connection Fee revenues are restricted for Capital Improvement Projects that enhance capacity and cannot be used for operating costs. Upon monthly review, adjustments may be necessary.

Sewer Fund 005 Revenue vs Expenditures

Water Fund 020 Revenue vs Expenditures
