Summary

Resolution No. 01-24 requires all developers to submit a required deposit and sign a Processing Payment Agreement when filing an application. The deposit includes the cost of processing an application. The deposit creates an account against which processing charges will be drawn automatically.

The City invoices all charges for services on a monthly basis. The invoice is sent with a statement that includes a description of services rendered during the billing period. A copy of paid invoices from the vendor is also included with the Billing Statement.

If a developer has a balance due, the developer must pay the amount. This may result in the need to collect additional deposits to maintain a positive account balance. If a completed project has a positive balance, the balance is refunded.

The above report shows all (active and inactive) private project balances through December 31, 2019. The total project balance is \$-10,340.50. Of that total, \$77,694.64 is due by developers to the City of Buellton, and \$67,354.14 is being held by the City of Buellton on behalf of the developer to cover expenses as they are incurred monthly. The amount due by developers has decreased by \$117,936.59, and the amount held by the City of Buellton has increased by \$4,998.28 from the last billing cycle ending November 30, 2019.

Summary:

The General Fund Revenue and Expenditure Report compares budget to actual amounts through December 31, 2019 and compares month-to-month data for the period July 1, 2019 through December 31, 2019. Upon monthly review, adjustments may be necessary and changes will be reflected on next month's report. At 50 percent of the fiscal year elapsed, about 45 percent of budgeted revenue has been received and about 46 percent of budgeted expenditures have been expended.

Revenue is below target due to timing differences. Sales Tax Revenue lags about two months. Property taxes are paid twice a year usually in December and April.

Non-Departmental expenditures were over budget due to annual payments paid in July. These include CalPERS Unfunded Liability, Liability and Property Insurance, Workers Compensation and contributions to Non-Profit Organizations. The Library budget is nearing total budget due to the Library contract payment paid as a lump-sum in July. Public Safety includes Motor Deputy services as invoiced monthly based on actual hours worked. Last year, it was billed as part of the Sheriff's contract.

Overall, department expenditures are within budget and expected to meet budget by the end of the fiscal year.

Sewer Fund and Sewer Capital Fund Report Summary for the month ending December 31, 2019

The Sewer Fund Revenue and Expense Summary Report compares budget to actual amounts through December 31, 2019. Upon monthly review, adjustments may be necessary. Contract Expenses lag up to 60 days. It should be noted that depreciation expense is estimated each month for reporting purposes. Actual depreciation expense will be calculated at the end of the fiscal year.

Although sewer revenue was slightly below budgeted revenue, revenue from Charges for Services was above targeted amount at 54 percent due to the sewer rate increase that became effective July 1, 2018. More usage due to the summer season may also contribute to higher than expected revenue from sewer services. Sewer expenses were below budgeted amount at the end of December.

Sewer Capital Fund: Connection Fees are received from new development and are restricted for Capital Improvement Projects that enhance capacity and cannot be used for operating costs. There was no activity in the Sewer Capital Fund this month. Estimated depreciation expense is reflected for the Sewer Capital Fund.

The graph below illustrates the 12-month revenue and expenditure trend for the Sewer Fund. It can be noted that revenue has been increasing at a steady pace while expenditures have been steady with some spikes in January 2019, June 2019, July 2019 and November 2019. These spikes are due to repair and maintenance at the Wastewater treatment plant. Depreciation is recorded in June.

Sewer Fund - 12 Month Trend

Water Fund and Water Capital Fund Report Summary for the month ending December 31, 2019

The Water Fund Revenue and Expense Summary Report compares budget to actual amounts through December 31, 2019. Upon monthly review, adjustments may be necessary. It should be noted that depreciation expense is estimated each month for reporting purposes. Actual depreciation expense will be calculated at the end of the fiscal year.

Water revenue from Charges for Services was above targeted amount at 57 percent due to a water rate increase that became effective July 1, 2018. Increased usage due to the summer season may also contribute to higher than expected revenue from water services. Overall, water revenue was on target at 50 percent. Water expenses were below budget at the end of December.

Water Capital Fund: Connection Fees are received from new development and are restricted for Capital Improvement Projects that enhance capacity and cannot be used for operating costs. There was no activity in the Water Capital Fund this month. Estimated depreciation expense is reflected for the Water Capital Fund.

The graph below illustrates the 12-month revenue and expenditure trend for the Water Fund. It can be noted that revenue has been consistent the last 12 months. The increase in Summer 2019 is due to seasonal high water usage. Water Expenses have been steady, with the exception of June when depreciation is recorded and October with the recent addition of a generator.

Water Fund - 12 Month Trend
