

LEAD MAINTENANCE & UTILITY FIELDWORKER JOB DESCRIPTION

Open-Competitive Recruitment
(Salary: \$56,268 - \$68,388 Annually)

GENERAL STATEMENT OF DUTIES:

Under the general supervision of the Director of Public Works, the Lead Maintenance & Utility Fieldworker performs a variety of skilled work in general maintenance, repair and construction work assignments in support of public works projects as required in their Davison; performs work on City streets, storm drainage systems, sewer systems, water systems, and other City properties and facilities.

DISTINGUISHING CHARACTERISTICS:

The Lead Maintenance and Utility Fieldworker is the advanced journey level classification in the Maintenance and Utility Fieldworker series. Positions at this level are distinguished from other classes within the series by the level of responsibility assumed, complexity of duties assigned, and independence of action taken. Employees in this classification supervise, assist, and provide other support to Fieldworkers in the accomplishment of assigned projects. This job classification performs the full range of duties assigned to the Maintenance & Utility Fieldworker series, including performance of advanced journey level activities. Employees at this level are required to be fully trained in all procedures related to assigned areas of responsibility.

SUPERVISION RECEIVED AND EXERCISED:

This employee receives general supervision from the Director of Public Works.

This employee exercises supervision over Maintenance and Utility Fieldworkers engaged in service, maintenance, and repair of City utility systems as a crew leader.

EXAMPLE OF DUTIES:

1. Supervises and provides direction, advice, training and assistance to Maintenance and Utility Fieldworkers.

Physical demands include frequent lifting and carrying of objects over 75 pounds, often combined with stooping, bending, twisting, crawling, reaching, working above ground at heights of 40 feet or more or on irregular surfaces, and working in confined spaces. Employee will be required to maintain Hepatitis B immunization. Must be able to work on-call and weekend shifts.

EDUCATION AND EXPERIENCE:

Education: High School diploma or General Education Development certificate required.

Experience: Three years of progressively responsible experience at the Journeyman Maintenance & Utility Fieldworker level or equivalent in the operation and maintenance of water distribution and/or wastewater treatment facilities including at least one year of experience as a crew leader, skilled worker, or other supervisory experience in a public works capacity.

SPECIAL QUALIFICATIONS:

Driver's License: Possession of a valid California Class C driver's license at the time of appointment.

Licenses:

At the time of appointment, certification issued by the State of California will be required at Grade III – Wastewater Treatment or Grade II – Water Treatment, as well as any combination of education and/or experience necessary for satisfactory job performance. The maintenance of valid licenses and certificates is a condition of continued employment and shall be continuously maintained. Stipends awarded for additional appropriate certifications.

SELECTION GUIDELINES:

City application required; rating of education, certifications, and experience; oral interview, job-related tests; successful completion of pre-employment physical and Live Scan background check.

PROBATIONARY PERIOD:

Employees must complete twelve (12) months of probation at a satisfactory level prior to gaining permanent status.

The duties listed above are not intended to be all-inclusive. An employee may also perform other reasonable related business duties as assigned by his/her immediate supervisor. This position is considered non-exempt.

This position description is subject to change by the City as the needs of the City and requirements of the position change, in accordance with applicable personnel rules and procedures.
